## MONEY, STOCKS AND GRAIN

New York Shares Strong at Times, but the Tendency Was Downward.

Speculation on Enormous Outflow of Gold from Now On-At Indianapolis More Attention Is Being Paid to Cereals.

## THE BOND MARKET. Railway Issues Held a Firm Tone on Sales

of Only \$889,000. At New York, yesterday, money on call was easier at 3 to 5 per cent., the last loan being made at 312, closing offered at 314.

Prime mercantile paper, 6@7 per cent. Sterling exchange was steady, with actual business in bankers' bills at 84.864 @4.8649 for sixty days, and \$4.87% @4.88 for demand. The total sales of stocks were 202,150 shares, including the following: Atchi-

son, 4,400, Burlington & Quincy, 7,000; Ubicago Gas, 5,200; C., C., C. & St. L., 4,900; Distilling 13,500; Missouri Pacific, 4,600; National Cordage, 5,100; New England, 8,500; Reading, 6,900; Richmond Terminal, 15,500; St. Paul, 15,800; Sugar, 64,000.

While the stock market enjoyed periods of strength yesterday, the tendency of prices in the main was downward, especially during the last hour of business. The heavy shipments of gold-\$3.500,000by yesterday's steamers, revived discussion as to the treasury gold reserve, and the monetary outlook also came in for a share of attention, the bears being bold in their \$4,800,000 additional gold will go forward by the steamers sailing later in the week. The firmness of the exchange market and the rapidity with which bills are absorbed continue to give force to the statements of those who are talking about heavy exports of the yellow metal during the next couple of months. The prompt adjustment of the labor troubles at the Chicago fair grounds had far less effect than anticipated. weakness of the general list partly due to a sharp onslaught ou American Sugar, which, despite the statements by officials that the earnings are enormous, continues to be pressed for sale with a degree of confidence which indicates the possession of knowledge by certain interests of an unfavorable character concerning the property. The stock declined to 101@1014 under an enormous pressue of sales. A good deal of long stock was forced out by this drop. Simultaneously there were large offerings of Big Four and that stock declined from 51 to 49. The usual leaders of the market yielded 4 to 14 per cent., but as they had previously advanced about as much the net changes for the day in most instances were merely fractional. Lake Shore was an exception, closing with a net loss of 14. The market closed weak.

Railway bonds were firm. The sales were \$389 000. Reading issues were extremely dull. Chicago and Erie incomes rose 1's, to 41's; Erie extended firsts, 1's, to 112%; St. Louis, Vandalia & Terre Haute Evansville firsts fell 2, to 103; Chicago & Eastern Illinois fives rose 14, to 108, and closed at 102. Government bonds were steady. State bonds were dull. Closing quotations were:

#### LOCAL GRAIN AND PRODUCE. A Cold Rain Acts as a Wet Blanket on

Trade-No Important Changes. Seldom in April is there so unpleasant a flay to do business as was yesterday. A pold rain checked trade in all departments, but business has been so brisk the preceding days of the month that no complaint was heard. In prices fluctuations were few. Poultry, provisions and vegetables carry an easy tone at the range of some days past. Receipts of eggs and butter continue light and prices firm. In speaking of butter one of the commission men said: "If the farmers' wives of the State of Indiana would learn to make butter it would bring hundreds of thousands of dollars to this State annually, but, unfortunately, 50 per cent, of their butter is fit only for soap grease, and but 25 per cent. of the butter made in this State is what can be called a good article.

There was a better attendance on 'Change yesterday, and the bidding showed that cereals were receiving more attention. No very marked changes in prices was noticeable. Track bids ruled as follows: Wheat-No. 2 red, 65c; No. 3 red, 62c;

No. 4 red. 57c; rejected, 50e; unmerchant-able, 45@50c. Wagon wheat, 65c. ## MAY WHEAT REACHED 870

Bulls Have Everything Their Own Way and Are Dictating Terms to Shorts.

July Wheat Not as Strong as the Bad Government Crop Showing Would Indicate-Corn Is Influ-need by the Leader.

## TRADING AT CHICAGO,

In Provisions the Tendency Seems Downward, Daily Growing Heavier, CHICAGO, April 11 .- Aside from what seemed to be a gigantic effort to squeeze Pardridge and other May shorts, the feature of to-day's trading in wheat was the comparatively small effect upon its price of the worse showing for a crop, but one, ever published by the government at this season of the year. An advance of to in July wheat, it is contended, by no means represents such a condition as the government figures would warrant. July wheat opened 14@140 higher than the close yesterday, and under rather free speculative offerings prices receded 1%c, then advanced %c, ruled steadier and the closing was about 42c higher. The present condition, taking the same acreage as last year, would imply a shortage of 42,000,000 bushels, or a crop of about 817,000,000 bushels, against 359,000,000 bushels hervested last year. However, based on the condition at the corresponding time a year ago, which was 81.2 per cent., the present condition would indicate a shortage of only about

tone was soon apparent, however, and a steady decline followed, the offerings of several of the larger shipping and receiving concerns, principally the former, being too heavy for the local crowd to absorb, Who in turn also sold, making the decline all the more easy. The largest stocks, with little or no demand for any quantity from the East, is responsible for the position taken by shippers.

Oats were weak from the start, and liquidation, by scattering holders, was the feature. The selling was in sympathy with the decline in corn and the reports of rain. There was no buying support except from "sborts," but they were not buying sufficient to help prices until a decline of 1480 had been recorded on May and %@14c on the other months. Later a rally of 4c occurred, and the market closed quiet. The general surroundings of the pro-

vision trade favored the short side of the market, and the weakness in grain tended to add to the depression in a general way. There was considerable realizing by the longs, and there was some property disposed of which had been carried on small margins and on stop orders. The receipts on hogs were fairly liberal, and prices decidedly lower, which was the entering wedge for a decline. The market closed at a slight reaction from inside prices, but compared with last night showed a loss of 85c to 42 4c for pork, . 12 12c to . 17 12c for lard, and .20c for ribs. Receipts of hogs for tomorrow are estimated at 19,000. There were no esamates made on the receipts of grain. The leading futures ranged as follows:

Options. | Op'ning Highest. | Lowest. | Closing. Wheat-April. May ..... July .... Corn-April. Oats-Mag .... Cultivation of Strawberries. Good soil, deep plowing, thorough culture and liberal feeding make the strawberry plant laugh and grow fat; they are very thirsty at fruiting time, but don't like beer; simply "stand there speechless" cry. ing water, water, and it will pay to give it to them in some way if you are after the most and largest berries. Well-rotted stable manure is a good fertilizer, but fine ground bone and wood ashes are better. Early spring is the best time to plant in the Northern States, but it may be done most any month of the year that the ground is free from frost; narrow rows,

three feet apart, will give more and better fruit than thickly-matted rows or solid Many make the mistake of allowing too

many runners to take root. Overcrowding Dever pays. Careless planting often results in a stunted growth of plants early in the season that it is impossible to remedy later. In any but a stiff clay soil, if it has been properly prepared, a man crawling along on his bands and kaees can, with one hand, scoop out a hole three or four inches deep, and, with the fingers of the other hand, spread out the roots of the plant, place in position and rapidly cover it with earth with both hands. Then, as he makes a jump forward for the next plant, bring pearly the whole weight of his body down on his hands, close up above the newly set plant and it is well

planted. George Richie, ten years old, was drowned at Guyandotte, W. Va-
